

Major content changes by JAK in SCCTP integrating resources training materials.

Session 2a, slide 32: changed content to reflect 2004 update to AACR2.

Session 2a, slide 42: noted deletion of area per 2004 update; added instruction: If this area was used in the description and the type and/or extent changes, delete the 256 field.

Session 2a, slide 56: moved updating loose-leaf info to its own slide; for electronic, gave information about option for remote access resources in 2004 update

Session 2b, slide 48: label above box changed to "Record for print serial"

Session 3, slide 10: added instruction: Give in chronological order from oldest to most recent.

Session 3, slide 21: replaced info in first bullet with this info: In determining if there is a new resource, consider presence/absence and change of header/footer dates. See LCRI 21.3B for different situations (it is second bullet on revised slide; gradual replacement edition info is first bullet)

Session 3, slide 24: changed content to note elimination of area in 2004 update and gave instruction to delete field if type and/or extent changes on later iteration.

Session 3, slide 28: changed content to remove that area not used for remote access resources

Session 4, slide 22: changed content for updating loose-leaves to reflect what is in current version of LCRI 21.3B

Session 4, slide 24: change "856 \$z" to "856 \$x"

Session 2 Exercises Word file: added statement referring participants to Appendix B for information they may need in order to select the appropriate Type of Record / OCLC workform to complete the two original cataloging exercises.

Session 2, exercise 1:

Slide 9: changed the coding in the 2nd single line 006 to match that in the expanded box 006 for Continuing resources below the record; added value "f" to GPub in the expanded box 006 for Continuing Resources and in the FF.

Slide 10: Deleted (Area 3): 256 Electronic data.

Instructor's note: 246 changed to: GDB should be given as a variant form of title based on the revised 12.1E1 (as instructed in IR3.2.4). 256 changed to: The area was eliminated from the rules with the deletion of rule 9.3 in the 2004 Update to AACR2. Generally retain the terms formerly used for this area (electronic data; electronic program(s); and, electronic data and program(s)) and any details about tiles, statements, bytes, etc., when using existing records for copy cataloging if the information still characterizes the resource. Such information now can be given in a Type of computer file or data note (516 field; see IR.9.21), combined with other notes

(e.g., a Summary note; see IR.9.19), or given in the 300 field if the option in AACR2 9.5B3 is applied (see IR.7.2.2)."

Slide 11: changed the URL in 856 on page 11 of instructor answer slide to match the URL in the first screen print for Genome Database.

Session 2, exercise 2:

Slide 16: changed FF code in 006 for Continuing Resources: Regl: "fill character"
Instructor's Notes: changed note of Continuing resources 006 to: ... Freq & Regl=k and "fill character" (regularly updated more frequently than daily).

Slide 17: deleted (Area 3); added Instructor's Notes for 256.

Slide 21: added area 5: 300 v. (loose leaf) ; \$c 28 cm.

Session 3, exercise B, slide 8: changed order of 247 fields to list the oldest to most recent.

Appendix B: added some of the information given at the beginning of the Session 5 case studies Word document for use with the Session 2 exercises.

Appendix C: Updated answers to reflect changes made to slides in sessions 2 and 3 exercises.
